More than a decade ago, we came across the remarkable scientific finding of transfer factors. After experiencing ourselves this nutritional support, our passion grew, and we knew we would spend the rest of our lives sharing it with others. Today, with the help of our outstanding research and development team, along with input from our distinguished Health Sciences Advisory Board, our original finding has developed into one of the most revolutionary supplements available today, 4Life Transfer Factor®. Our progress has solidified 4Life worldwide and served as the springboard for Transfer Factor™ Science.

No matter what your age, or where you’re from, we have a safe and effective transfer factor product that’s just right for you. We invite you to try 4Life Transfer Factor for yourself and feel the difference that it can make on your personal wellness. Complemented by a wide range of additional supplements to meet your personal skin care and wellbeing, we are confident that 4Life products will make overall wellness support something you’ll look forward to every day.

Sincerely,

David and Bianca Lisonbee
4Life Founders
What are Transfer Factors?

Transfer factors are found in cow colostrum and chicken egg yolk which reinforce general wellness. One simple way to understand this is realizing that mother’s milk, apart from nutrients, contains a large amount of transfer factors which ensure the wellness of newborn babies.

Discovery: Dr. Lawrence and David Lisonbee

- Transfer Factors were discovered in 1949 by Dr. Sherwood Lawrence, a prominent New York University scientist, and it was him who named them transfer factors. He dedicated decades of his life to research into his great discovery.

- David Lisonbee, in his continual personal research into wellness, learned about the importance of transfer factors and the work carried out by Dr. Sherwood Lawrence.

Bringing Transfer Factor to the World: 4Life® is Born

What started out as a simple desire to help improve his own health and that of his family quickly became a search for a way to give people all around the world an optimal life.

In over more than twenty years of research into food supplements, David Lisonbee realized what was the key to boosting the whole body’s wellness. While others searched for exotic fruits in remote corners of the world to discover the key, David looked within the human body: what he found led to a wellness revolution.

David and Bianca Lisonbee, convinced of the importance of transfer factors in people’s wellness, created 4Life Research in 1998: a company dedicated to the wellness of people and which does three things better than anybody: Science, Success and Service.
Our Pillars

4Life® Builds Lives through Success, Science and Service taking Transfer Factor to the world to promote the welfare of people.

Science
4Life promotes wellness and higher quality of life thanks to the revolutionary boost to wellness offered by the whole range of 4Life Transfer Factor products.

Success
4Life offers an unmatchable opportunity to help people to achieve their goals and financial freedom through the 4Life Opportunity and the Life Rewards Plan™.

Service
4Life strives to build lives, families and communities around the world through the humanitarian work of Foundation 4Life.
Recognition

4Life Transfer Factor® products work and have been making news for more than a decade.

I.N. Blokhina Award
This prize is usually awarded to university professors, biologists and biochemists. In 2006 David Lisonbee won this prize in recognition of his commitment to research into transfer factors, patents and innovative production processes.

$100 Million Club
In 2010 4Life entered this club on becoming a direct selling company with annual sales of more than $100 million.

Nexera
In early 2012 Nexera, a major provider of training and educational tools for the network marketing industry, announced its staff choice of the top 25 network marketing companies in the industry and ranked 4Life at number ten.

Success from Home magazine
We have been endorsed by independent organizations in leading publications, such as Success from Home, which promotes credibility and so inspires confidence in the future success and stability of 4Life.

Inc. magazine
4Life was placed 15th in the list of private companies with largest growth in the United States.

TotalHealth magazine
4Life was recognized for its dedication to wellness by this prestigious magazine, a publication recognized for its in depth content on personal wellness.

4Life Fortify™
Nutritional Meal Pack

What could a little girl accomplish with a rich, warm meal in her belly? What could she achieve and dream? What could she grow up to be?

In many parts of the world, children don’t get the nourishment they need on a daily basis. So many mothers and fathers struggle to provide the life essential of food for their children—let alone, healthy food that will give kids the vitamins and minerals they need to grow up strong. This problem is especially true of children living in orphanages. So often, there just simply isn’t enough food, and kids struggle to function with a painful, empty feeling in their stomachs, often unable to concentrate in school.

Each 4Life Fortify meal pack provides 24 high-quality, child-size meals of rice, lentils, and beans, along with a complete nutritional complex of vitamins, minerals, and 4Life Transfer Factor®. It’s the perfect foundation for overall wellness.

These packs are filled with the vitamins and minerals that growing kids so desperately need. Satisfied with a warm and nutrient-rich meal, a child will be able to focus on her daily chores and excelling in math, science, and geography, rather than the distraction of an empty feeling in her stomach.

Visit www.4lifefortify.com to purchase 4Life Fortify and provide a child or a family with a warm and nutrient-rich meal.
NOTE: 4Life Fortify meal packs are not sent to Europe. 4Life Research™ offers an incentive to buy, donate, and promote 4Life Fortify meal packs. Commission is included in the price of the pack and allows distributors to invest their time and resources to encourage others to join Foundation 4Life’s legacy of service. 4Life Fortify is a product created and supported by 4Life Research, a for-profit company that facilitates donations of purchased 4Life Fortify meal packs to non-profit partners such as Feed The Children. Charity partners distribute 4Life Fortify to children in need without charge or fees.
